Colors, Coverings, and Finishes

Corsage

Vibrant colors in beautiful harmony are captured in this decorator pattern — a fabric-reinforced plastic which wipes clean with a damp cloth.

Corina

Fresh, lively, adventuresome — this smart summer plastic brings exciting beauty to your patio. It is reinforced with a fabric back and wipes clean with a damp cloth.

Finishes

All Homecrest patio furniture finished in white or Pompeian green has a baked-on enamel finish which is resistant to chipping and peeling. The welded frame is first completely bonderized (a process by which the metal is cleaned with a hot caustic solution), hot rinsed, phosphate coated, rinsed again, and then neutralized. All components are then completely immersed in a lead chromate primer, dried, then dipped and electrostatically sprayed with mar-resistant enamel and baked at a high temperature to assure a smooth, hard surface.
