## Our Materials

We use the highest quality materials available. Steel tubing and aluminum extrusions are custom designed for strength and durability. Fabrics are specially treated to withstand the outdoor elements. Cushion fill is fast drying and designed specifically for the best in comfort. Vinyl for strap and table bumpers is 100% pure to maintain elasticity and color. Our paint system is state-of-the-art and environmentally friendly. Finally, it's tested over and over to assure that all Homecrest furniture can be enjoyed for years to come.

## Our Quality Craftsmanship

Materials are only part of what goes into manufacturing a quality product. True craftsmanship comes from people. Our employees work under the philosophy that quality is a way of life. They are also highly trained in the latest technologies, including advanced metal welding, bonding techniques, and computerized fabric cutting. This quality philosophy, advanced technology, and an unparalleled pride in our work is what sets Homecrest apart.

## Our Comfort

Comfort and Homecrest are synonymous. Ergonomics is designed into every product. Swivel rockers use patented coil springs and stainless steel ball bearings for the smoothest and most stable movement available. Sling products use a double layer construction for body conforming support and durability. Additionally, we offer many exclusive products and features. All of this adds up to the most comfortable furniture in the marketplace today.

## Our Testing

At Homecrest, testing is an every day process. We do tip tests to ensure stability and safety. We test our swivel rockers for over 1,000,000 rock cycles so that you can enjoy them for generations. Our testing of fabric, paint, and vinyl are the most demanding in the industry to ensure that color and quality not only meet, but exceed the standards. This extensive testing is not just to make furniture better, but to make better furniture.

## Our Style

On top of all the things we do at Homecrest to ensure quality, durability, and the most comfortable furniture - we add **style**. We know your home is unique, and you want to enjoy a style all your own. To satisfy your individual tastes, we offer over 36 different furniture collections with over 160 fabrics and 16 frame finishes so you can coordinate your casual and outdoor living spaces with the rest of your home.

## Teak Care and Maintenance

Teak is a beautiful and durable hardwood. After being outdoors for a period of time, it will weather to a silver-grey color (see below). The time period depends upon the amount of sunlight and rain the wood is exposed to. As the wood expands and contracts during this initial exposure, checking can occur. This is normal and will not affect the quality or durability of the furniture. Many people prefer the silver-grey color, but should you wish to maintain or bring back the original wood color, a teak cleaner is recommended. To clean the wood and leave the silver-grey color, use a mild soap and water.

We do not recommend using any type of oil when the furniture is used outdoors as this can cause mildew and irregular coloring to occur.

You can select from over 160 fabrics in a variety of colors and constructions, many of which are exclusive to Homecrest. We offer the best fabrics available to ensure their unique characteristics will withstand the test of time.

### COMFORTEXT® AND ACRYLIC/COMFORTEXT/POLYESTER BLENDS

**Comfortext®** stripes and solid patterns are open weave fabrics constructed of thermal bonded vinyl coated polyester threads. These fabrics offer strength and durability, easy cleanability, and quick drying times. UV stabilizers and mildew inhibitors are added to minimize the effects of prolonged outdoor exposure.

**Acrylic/Comfortext/Polyester Blends** incorporate acrylic threads to produce an intricate pattern with all the above advantages, plus they offer a softer hand and more color intensity.

**Cleaning instructions:** Address stains promptly. Use warm water with a mixture of strong liquid detergent and chlorine bleach (one cup to three gallons of water). Always rinse thoroughly. Pat to remove excess water and allow to air dry.

### ACRYLICS, ACRYLIC BLENDS, OLEFINS, AND CHENILLES

This category includes solid colors, stripes, standard jacquard patterns, and the new and dramatic tapestry weaves. By using solution-dyed threads, which are then woven into a pattern, the results are the look and feel of fine indoor fabrics that are recommended for outdoor and indoor use. UV stabilizers and a protective coating are applied to produce a fabric that is very durable. Another advantage is the easy cleanability.

**Cleaning instructions:** Address stains promptly. Add 1/2 cup of chlorine bleach per three gallons of mild soap solution. Always rinse thoroughly. Pat to remove excess water and allow to air dry.

### ACRYLIC PRINTS AND POLYESTER PRINTS

Printed fabrics offer an infinite variety of color and pattern options. The design is printed on the base cloth of either 100% acrylic or 100% polyester. We specify only the highest quality UV stable inks and then add a protective coating to ensure the reliability of our printed fabrics. Printed fabrics are recommended for outdoor and indoor use but must be cared for slightly different. ☀️ The use of Homecrest Covers on printed fabrics will help reduce fading and extend life.

**Cleaning instructions:** Address stains promptly. Use a solution of lukewarm dishwashing liquid. Sponge thoroughly with clear water. Pat to remove excess water and allow to air dry.

**Do not use harsh cleaners or bleach on printed fabrics.**

For specific stain removal on all of Homecrest's fabrics, please see the cleaning and maintenance section of our warranty information book.
