FABRIC + FINISH OPTIONS

Design matters. The perfect combination of color, texture, and pattern not only adds beauty, but also has the power to invigorate and rejuvenate. Homecrest partners with several fabric vendors to offer exclusive fabrics that feature unparalleled performance and durability without sacrificing design. Visit homecrest.com/frame-finishes to view our finish options, and to view an entire list of available fabrics, simply scan the QR code on the right!

SLING & SENSATION SLING FABRIC OPTIONS

Homecrest sling (S) fabrics can be used on all sling seating collections with the exception of Homecrest air (A) collections. Products that indicate air as a seating option are only available in Homecrest's Sensation slings. Homecrest's double layer sling has both a welted design and non-welted design, signified by the collection. The sling fabric will be the same on the front and the back unless a padded sling is selected.

CUSHION, PADDED SLING, & UMBRELLA CANOPY FABRIC OPTIONS

We have various fabric collections that are available for both cushion (C) and padded sling (PS) seating options. Most fabrics can also be used for umbrella (U) canopies on both new orders and replacements.
