

MILA

CUSHION | ALUMINUM

 Cushions are secured to withstand wind and ensure long-lasting performance.

With fluid arms evocative of a waterfall, our Mila collection is a perfect blend of mid-century modern and Art Deco. This collection offers a simple, face forward design that is equal parts form and function, inspired by our rich history of trend-driven styles in the outdoor furniture industry. Its solid aluminum frame and powder-coated finishes ensure that Mila performs well in outdoor environments from coast to coast, while the moisture-resistant High Resilient cushions offer a luxurious sit.
